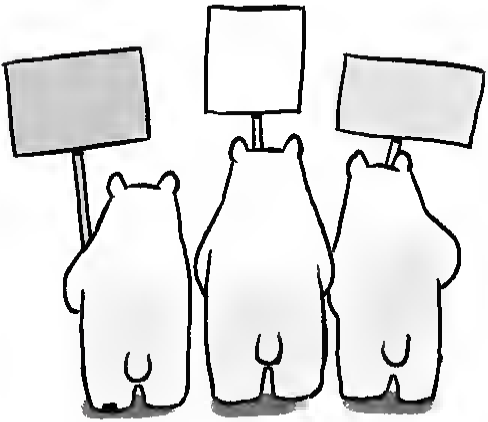
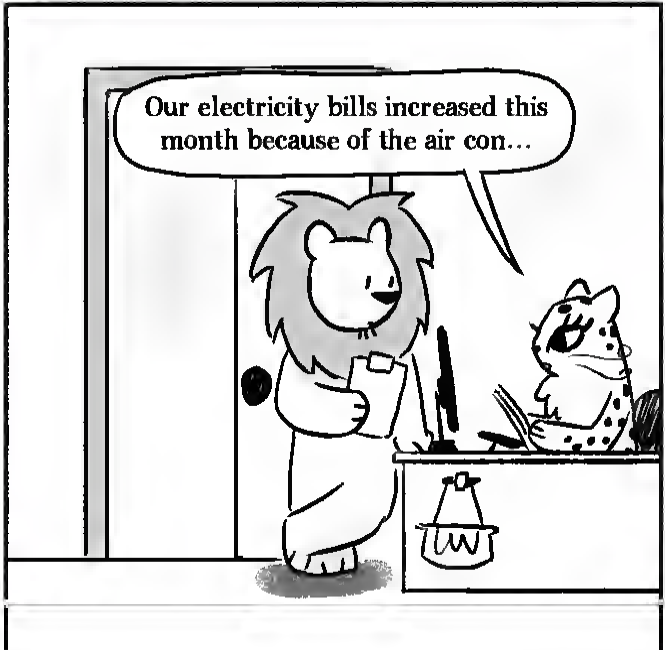
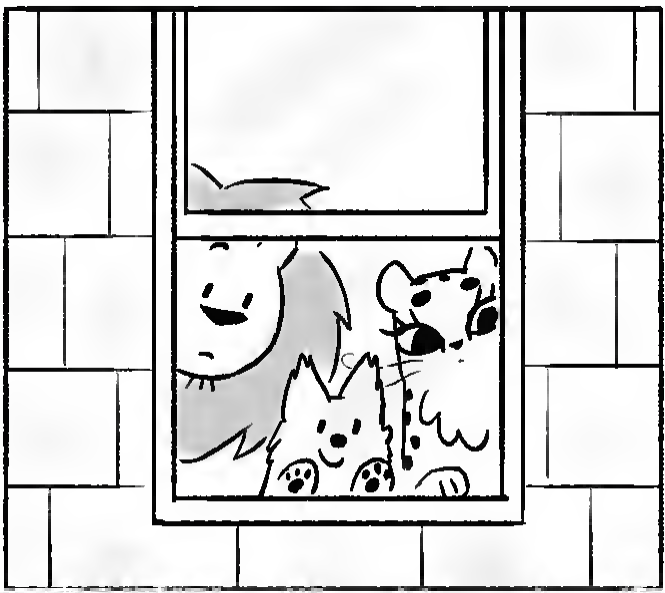
The Climate March

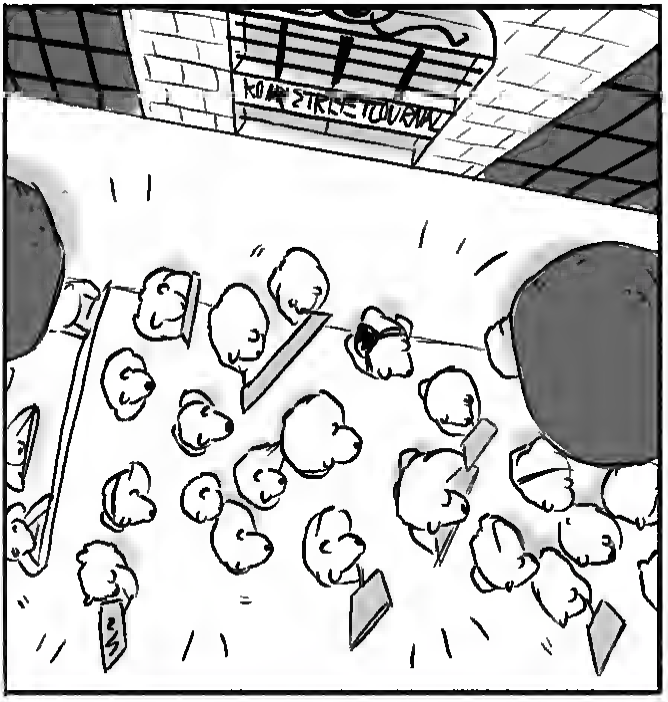




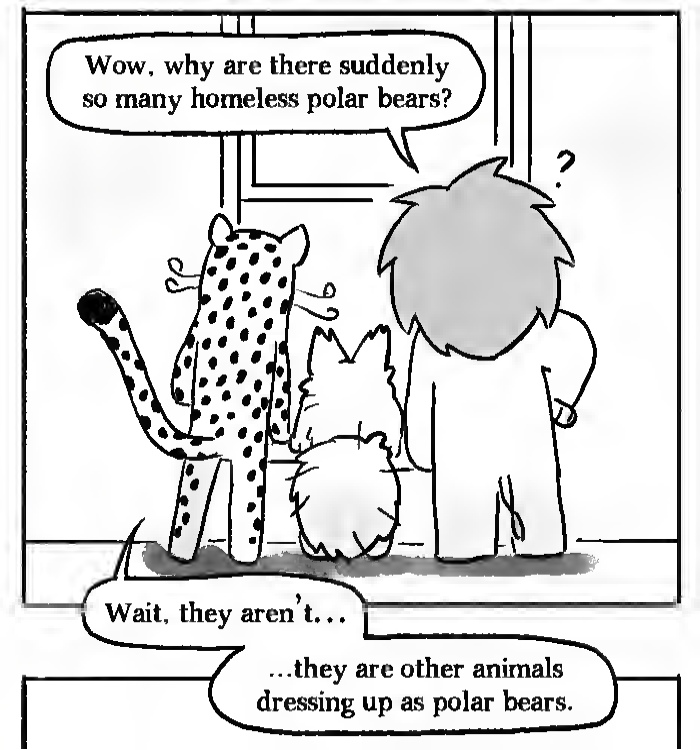
Our electricity bills increased this month because of the air con...

Come and see!
Something is happening on the streets!





KOMIK STRIP TUTORIAL



Wow, why are there suddenly so many homeless polar bears?
?
Wait, they aren't...
...they are other animals dressing up as polar bears.

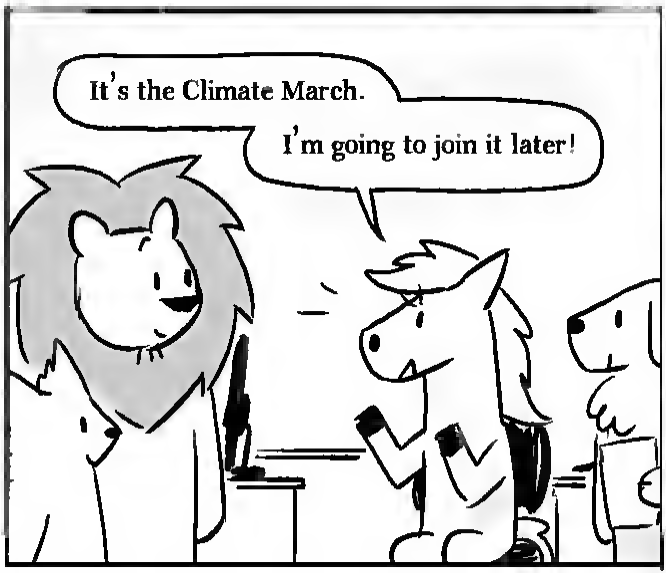
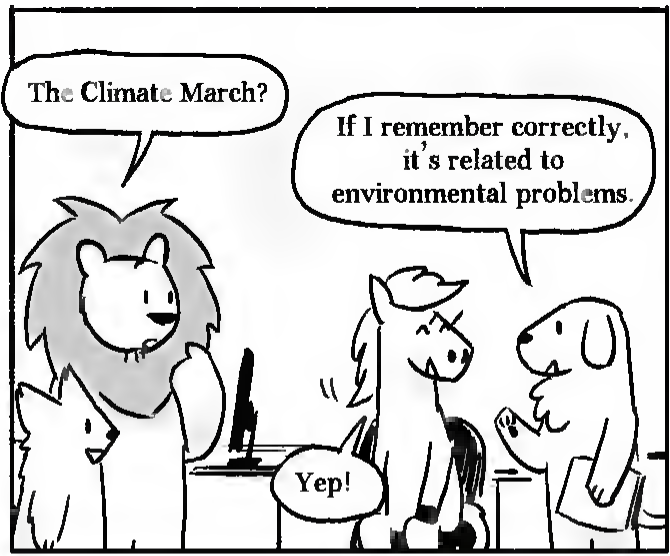
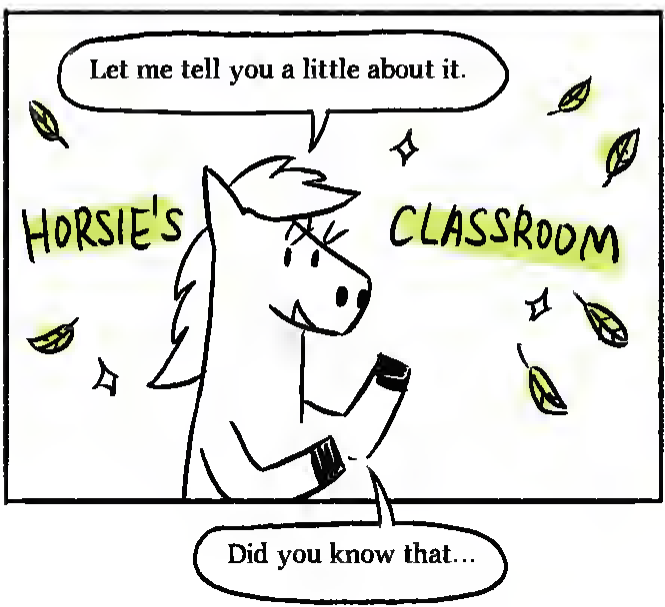
Anyone knows what's happening down there?



It's the Climate March.
I'm going to join it later!



The Climate March?
If I remember correctly, it's related to environmental problems.
Yep!



Let me tell you a little about it.
HORSIE'S CLASSROOM
Did you know that...

When we burn fossil fuel for energy,

it releases a lot of greenhouse gas into the air.

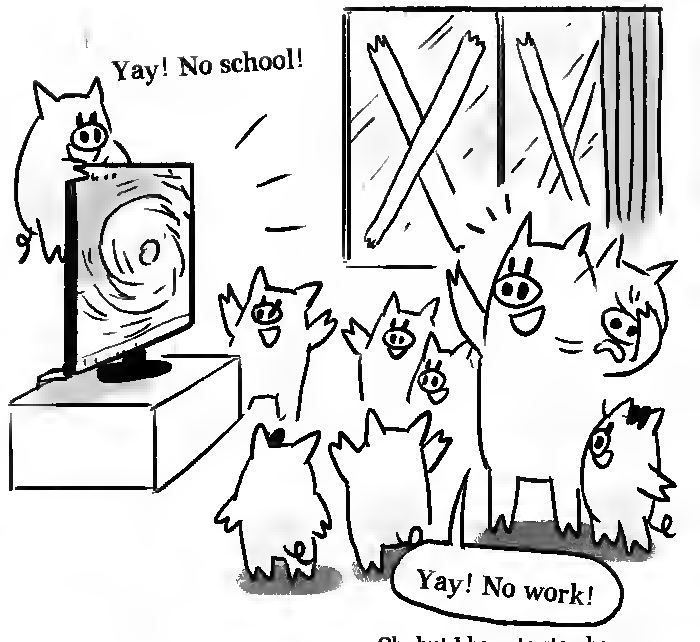
The greenhouse gas traps heat in our atmosphere.

If our planet keeps heating up...

...there will be more severe weathers.



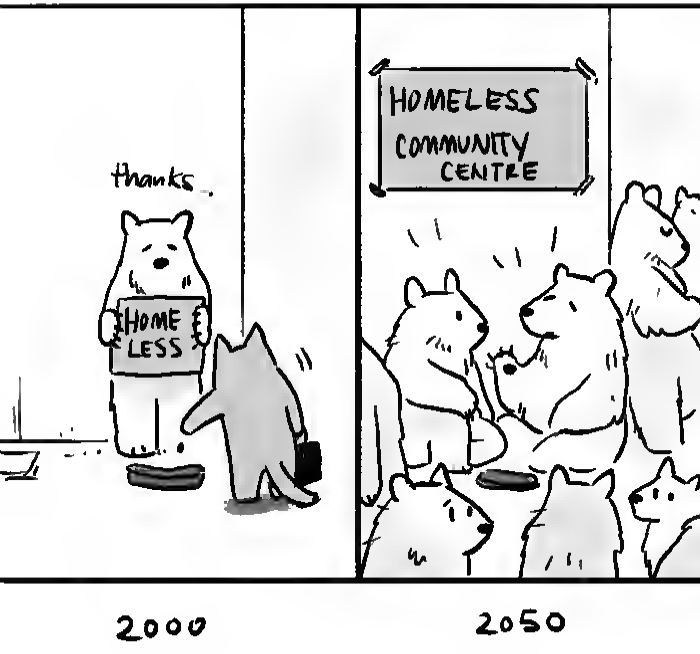
Yay! No school!
Yay! No work!
Oh, but I have to stay home to take care of my children...

Summer will be hotter and longer in some places...

...while winter will be colder in other places.

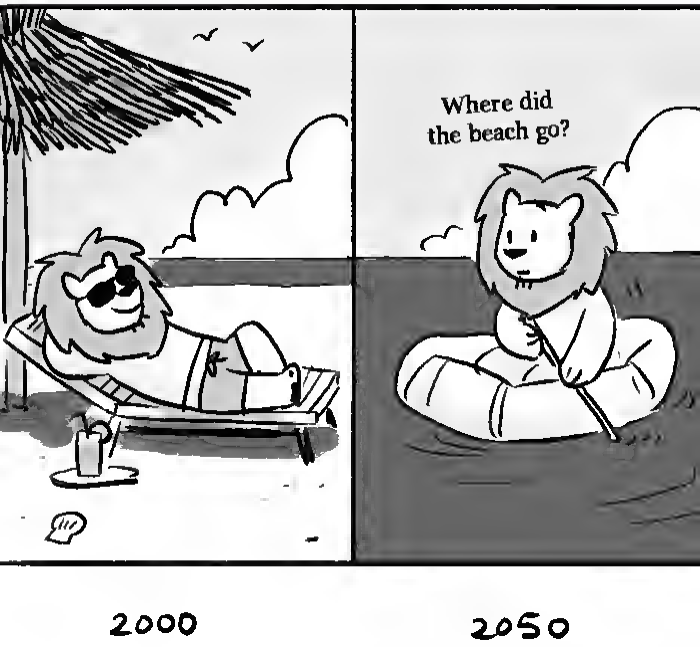
Lots of ice will melt...

Homeless polar bears

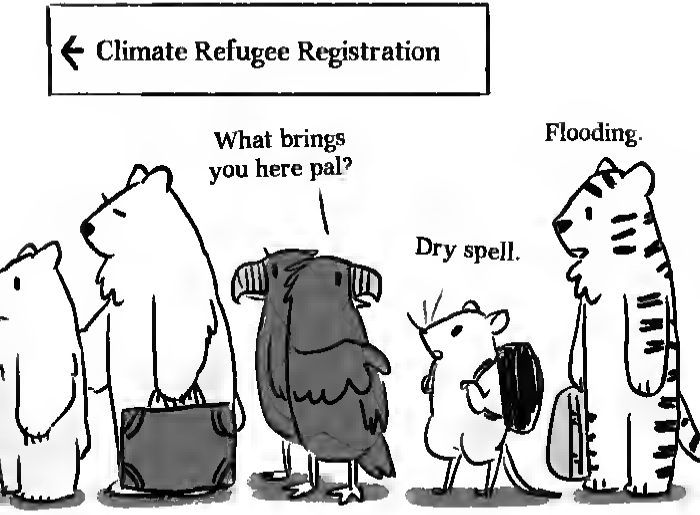


...and the sea level will rise.

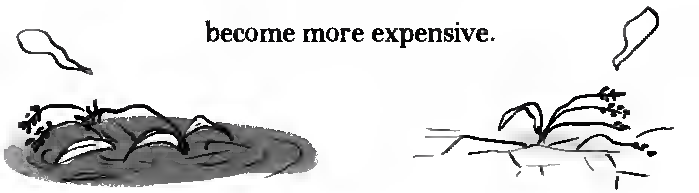
Island vacation

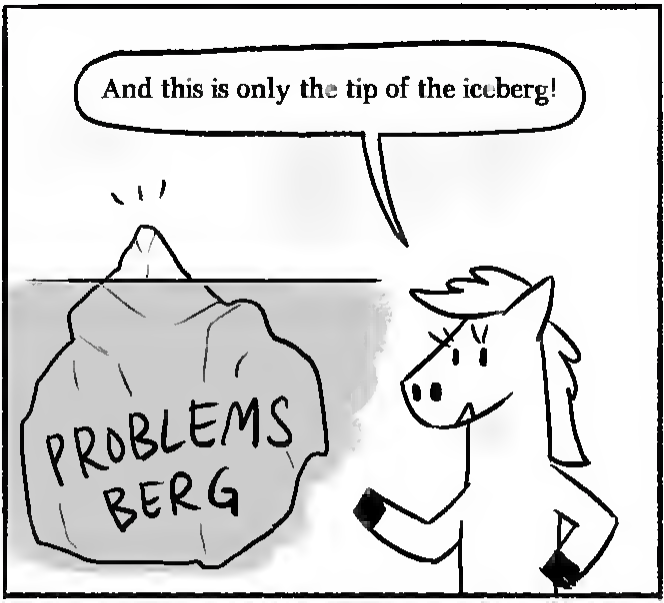


Many animals will lose their home.



Food will be more difficult to grow and become more expensive.

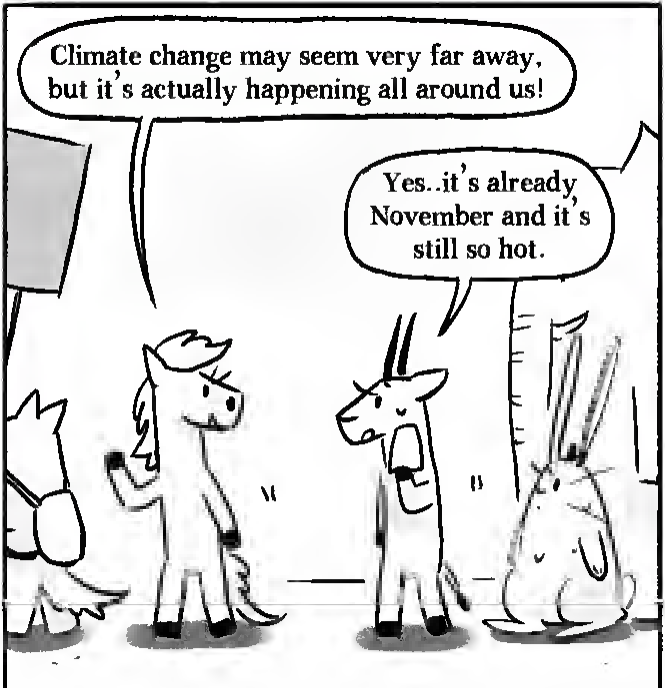




And this is only the tip of the iceberg!
PROBLEMS
BERG

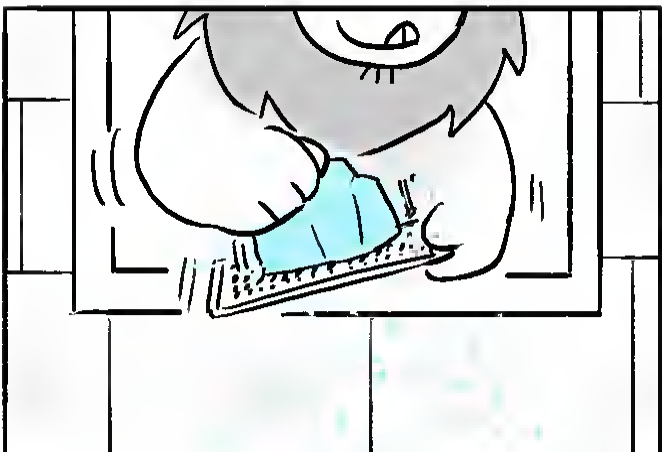
I want to help our planet.
That's why I'm joining the Climate March to support this cause!
Wow, I never knew we can affect the world so much...
We will join you too Horsie!

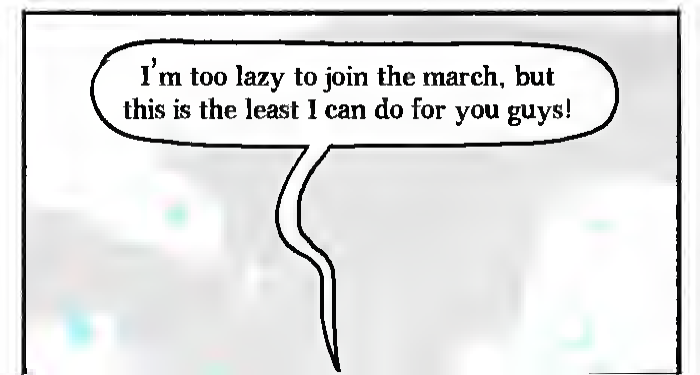
We will stay here to keep the office running.



Climate change may seem very far away, but it's actually happening all around us!
Yes..it's already November and it's still so hot.

Huh? It's snowing?
The weather is getting strange nowadays.





I'm too lazy to join the march, but this is the least I can do for you guys!

ROARSTREETJOURNAL

Climate March 2015 is held on

November 29 worldwide.

I am going to dress up as a polar bear

and join the Climate March in Hong Kong!

I am from Romania and
our national beauty is the lynx :D

Readers from Romania!

The Eurasian Lynx is the national animal of Romania. It has a large population and usually hides in the deep mountains to avoid humans.
